MCCLELLAND STEWART, United Kingdom, 2009. Paperback. Book Condition: New. Emblem.. 214 x 138 mm. Language: English . Brand New Book. Renowned as a passionate Canadian, bestselling author Mel Hurtig has combed through world statistics to see how Canada really measures up -- and the results are astonishing, and often shocking. This book is about how Canada has changed, very much for the worse, in the last twenty years. As a result of these profound (often hidden) changes, we are no longer the people we think we are. To take one example, the Canadian media usually leaves us with the impression that Canadians are really heavily taxed. Yes, compared to the U.S.A., the usual point of comparison. No, compared to other countries with our standard of living, other OECD countries, for example; there we come in 23rd on the high-tax scale. The shocks in this book build up, chapter by chapter. How do we rank in the world in voter turnout? Try 109th. Number of physicians per 100,000 population? Try 54th. Our rank in reducing pollution? 126th out of 146 countries. Some of the statistics are internal, comparing Canada then and now. They back up two of the book's most powerful themes: the failure of Canadian big business to turn record profits into ongoing investment in our country, and (no coincidence) the sellout of our assets at a rate that no other country would allow. This statistics-based book ranges across all areas of our lives -- including health, wages, productivity, culture, the media ( the most concentrated in the world ), and much else. Mel Hurtig's message is that we can't do anything to fix the direction we're drifting in unless we recognize it -- and recognize The Truth About Canada. From the Hardcover edition.
