Summary: "Wonderfully uplifting and inspiringly diverse perspectives on aligning ourselves with the fullness of our own possibilities as individuals and as a species. The bottom line: flavor and savor every moment, especially the toughest ones, with not-knowing, with good will, imagination, kindness, wisdom, humor, community, and action. My father-in-law, Howard Zinn, said it so well: "Small acts, when multiplied by millions of people, can transform the world." -Jon Kabat-Zinn, author of *Full Catastrophe Living* and *Coming to Our Senses* "Hope Beneath Our Feet is just that. With penetrating clarity it takes us into the depths of our essential nature: our courage, brilliance, and resilience. We are called to take advantage of the greatest opportunity for conscious self-evolution the human species has ever been given. A real masterwork." -Barbara Marx Hubbard, author of *Conscious Evolution: Awakening the Power of Our Social Potential* and founder of the Foundation for Conscious Evolution "This is a wonderful, inspirational book composed of works by thoughtful, intelligent, and caring people discussing the fact that we and our fellow species face extinction if we proceed with life as we have in the last two hundred years...."
