SHADOWS IN PERSPECTIVE. 187. -- Shadow is the obstruction of light. If any object is lighted from a single source, the rays of light which fall upon it will be interrupted and a portion of space extending indefinitely behind the object will be deprived of light. This darkened space is called the invisible shadow of the object and will take the form of a cone or cylinder, the elements of which are the rays of light tangent to the object. 188. --The intersection of this invisible shadow with any plane is called the visible shadow of the object upon the plane. When the term shadow alone is used it usually means the visible shadow. In Fig. 81, O represents an object in space lighted by solar rays coming in the direction indicated by the arrow. The sun being at so great...

Reviews

An exceptional pdf and the typeface utilized was fascinating to read through. It can be written in straightforward words and phrases instead of confusing. I am just quickly could possibly get a delight of looking at a written ebook.

-- Prof. Arlie Bogan

It is in a single of the best book. This is for those who state there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.
